## **CVM160-1**

### **Infusion mesh**

#### **DESCRIPTION:**

CVM160-1 is an extruded type infusion mesh, designed to efficiently distribute resin during infusion process. It is compatible with UP / VE and epoxy resin systems, and widely used for applications like marine and wind turbine industries.

#### **TECHNICAL DATA:**

Material Type: PE

Color: Green

Max Use Temperature: 125°C

Areal weight:  $160 \pm 10$ g/sqm.

#### **STANDARD SIZE:**

Width: 1.21m, length: 100m.
